

Terms of Quotation

All Business with Röhlig Deutschland GmbH & Co. KG is undertaken and performed subject to of the Allgemeine Deutsche Spediteursbedingungen 2017 (ADSp 2017), a copy of these is available on our website or upon request. By accepting this quotation, you confirm that you have the full text of these Conditions in your possession, that you understand them and that you agree with them being fully applicable to the service quoted for.

Pursuant to clause 23 ADSp 2017, the liability for loss and damage of goods is limited to 8,33 SDR/kg, is further limited to the higher of Euro 1 Million and 2 SDR/kg per claim provided that all claims as per event are limited to the higher of Euro 2 Million and 2 SDR/kg, and where multimodal transport with sea carriage is involved to 2 SDR/kg.

Our consignor liability according to section 414 German Commercial code (HGB) - except in case of intent or gross negligence - is limited according to section 449 (2) S. 2 HGB auf 8,33 SDR per kg gross weight. Our consignor liability is limited to the maximum amount of € 1 million.

We contradict deviating general terms and conditions (GTC) of the customer, in particular the German transport and storage conditions (DTLB) is expressly contradicted.

Applicable quotation sheets, booking confirmations, e-mail communications and other writings with applicable rate and charges for the shipment, and shipper's or consignee's response by e-mail or other writing constitute an offer by carrier and an acceptance by shipper or consignee for transportation services pursuant to 46 C.F.R §520.13 and §532. All rates, costs and fees quoted are estimates only and may be adjusted if changes occur. Rates quoted for transportation are based on tariffs currently in force with the carrier(s); more specific, ocean freight and air freight are based on the CAF, BAF, local port charges and airline fuel & security surcharges prevailing at the time of shipping, as provided by the carrier(s), and may be subject to change.

All origin / destination charges are additional where not specifically mentioned. All quotations are subject to carrier space & equipment availability. All weight and dimensions are subject to carrier approval. All quotations are based on containers and / or packages being within legal weight limits.

Delivery / pick up rates are based on live load/unload unless otherwise noted. Waiting time will be charged for each additional hour thereafter at either the estimated hourly rate or, if no estimate has been given, at the rate that is usual when the waiting time is incurred.

Customs exams fee, duty, taxes and any other government charges are not included in our quote unless specifically mentioned.

This quotation does not include transport insurance either. We strongly suggest you to have your goods transport insured. Insurance premiums are available on request.

Detention and demurrage charges will be applicable for shipments wherein customers have exceeded the standard free time applicable both in the import & export cycles.

Forwarding quotations cover general cargo only, Quotations for dangerous goods, over length cargo, upper deck cargo, perishable, valuable cargo and / or cargo not suitable for stowage in standard 20' and 40' containers (ocean freight) are only available on request.

The principal must inform the freight forwarder and abide at the time of giving the instructions, to all regulations concerning marine safety regulations (e.g. SOLAS) and needs to provide instructions if trademark and industrial property rights of third parties e.g. license restrictions arising from the Ownership of the product as well as statutory provisions and official restrictions which may cause problems in the order procedure.

Any claim or dispute arising hereunder or in connection herewith shall be subject to German Law and the exclusive jurisdiction of the Courts in Bremen.

Our rates are calculated based on the greater of the total weight or actual weight of the total volume. The calculations of estimated gross weight are based on the highest of the following indicators:

Type of Transport	Volume calculation
Air freight	1 m ³ = 167 kg
Sea freight	1 m ³ = 1,000 kg (minimum 1 m ³ or 1 ton)
Truck	1 m ³ = 333 kg
