# We create tailor-made solutions to improve our client's logistics processes

## Air Freight

Meeting all your air transport needs efficiently

Select from a huge range of air freight services. Our IATA-trained air freight experts are available to guide you through the process.

## Airwave Solution

The speed of air freight combined with the reliability and cost efficiency of sea freight

Our Airwave Solution offers the advantage of half the transit time of regular sea freight while also reducing cost.

## Project Logistics

We handle the load perfectly, regardless of size

We apply expertise specific to your project. Our project team offers innovative and flexible project solutions for all your global transportation needs.

## Our Courier Solution

Streamline your small parcel process

The online shipping platform that helps you manage express domestic and international shipments. Print labels, schedule pickups and download reports - all directly from your computer. Visit [www.rohligcourier.com](http://www.rohligcourier.com)

## Sea Freight

Optimum sea freight solutions

We offer an extensive portfolio of global sea freight services. We plan and implement the entire transport chain for your goods. Our strong international network gives you access to experts with an in-depth understanding of local market requirements.

## Customs Clearance

Specialists in handling, reviewing and auditing the customs process of your shipment.

Our highly qualified team of customs brokers offer expert advice to maximise efficiency and protect you from legislative risk.
