

our warehousing solution

2 Price Road Meadowview

New Contract Logistics Facility

VISION

Röhlig-Grindrod is building a state of the art, fit-to-purpose multi-principle distribution operation which focuses on delivering:

- ✓ Flexibility
- ✓ Simplicity
- ✓ Efficiency
- ✓ Best practice flows & processes

The newest product in Röhlig-Grindrod's integrated logistics offering, is our Contract Logistics facility in Johannesburg. This brand new facility features 21,000sqm of floor space and has capacity for 27,300 pallets.

Located 2 km's from the N3 highway at 2 Price Road, Meadowview, it provides easy access to OR Tambo airport and main routes to all major cities in the country.

The facility is managed using a state of the art Warehouse Management System that enables customers to effectively manage their inventory through stock level visibility, e-documentation and an online portal through which to communicate warehouse instructions and requests.

Our valued customers and partners are treated as the dynamic and individualistic businesses that they are. We believe in providing customised solutions tailored to your specific requirements and needs. Support and help will never be far away as our qualified and experienced

staff are eager to assist and share their logistics expertise to add value to your supply chain.

Our purpose is to be your partner of choice to deliver the right products, in the right quantities, to the right place, at the right time and at the right cost, as we believe that this is a key differentiator for businesses today. We strive to not only impress you, but also your customers; by being fast, flexible and responsive with your product deliveries and warehousing needs. This will enable you to offer more customised products and solutions, as well as just-in-time delivery that will optimise your and your customers' supply chains. As a result, your customers are more satisfied and loyal.

Please contact us for more information if you are interested in dynamic warehousing solutions, improved efficiencies, improved cycle times, overall cost reduction of inventory, economies of scale, and overall cost savings.
