

ENVIRONMENTAL POLICY STATEMENT

Bremen, 27th March 2020

SCOPE

Röhlig is committed to the continual improvement of our company's environmental performance. Our management system is committed to comply with ISO 9001, legal and other requirements and is continually monitoring ISO 14001 requirements on a global level.

OUR COMMITMENT

At Röhlig we are committed to act responsible and protect our environment by promoting sustainability throughout our business activities and decision making processes.

Our commitment to "Green Thinking" within our organization is demonstrated through our commitment to keep ISO 14001 certification and through setting green objectives as well as supporting our environmental programs.

Our Environmental Management System is verified regularly through audits and maintained through regular reviews of our environmental performance, monitoring of the achievement of our targets and objectives as well as control measures.

Additionally, our companies will also focus on other areas at a local level. Information about our environmental program is periodically announced on our website: www.rohlig.com.

We are solid, vivid and committed – we are Röhlig.
